DB12 S COUPE

Your Personal Specification

Built for those who set the pace. Who shape the world. Who look forward, not back. The unmistakable ‘S’ badge a signal of unparalleled performance, engineered to lead. Delivering a driving experience as confident as its stance. Where every line, every curve, every surface radiates precision and power. A revised exterior carved to deliver a clear, emphatic declaration of sporting purpose. A Super Tourer for those who make all roads their own, and leave others to follow.

POWER	**700**	PS / 690bhp at 6000rpm
TOP SPEED	**202**	mph (325km/h)
ACCELERATION	**3.5**	s 0-62mph (0-100km/h)
ENGINE	**4.0**	litre V8 Twin Turbo
TORQUE	**800**	Nm from 2750-6000rpm

DB12 S COUPE

Exterior

DB12 S builds on over 75 years of DB heritage with more assertive and aerodynamic form. From the clear intent of the all-new front splitter and bonnet louvres to the force of the fixed rear spoiler and the visual assertion of the quad exhaust system. Every element exudes precision, power, and menacing presence. A promise of awe-inspiring performance.

This configurator is not an offer to sell and is merely an indication of the types of Aston Martin vehicles, options or accessories which may be available from time to time and which may be ordered or purchased from an authorised Aston Martin dealer. Any purchase is subject to the terms and conditions of sale (including price) issued by the particular dealer. Any vehicles illustrated may include additional options at the time of any sale that are not featured here. Each vehicle or option described in this document is subject to availability. Features and specifications may vary according to each market. All information in this document is subject to change by Aston Martin without notice. Aston Martin makes no warranties, representations, or guarantees of any kind, express or implied, in relation to the vehicles and options presented including but not limited to, the accuracy, currency, or completeness of the information given in the Aston Martin vehicle configurator.

Official government fuel consumption figures in litres/100km (mpg) for the Aston Martin DB12 S Coupe: WLTP Low 19.5 (14.5); WLTP Medium 12.1 (23.4); WLTP High 10.0 (28.2); WLTP Extra High 10.5 (26.9); WLTP Combined 11.9 (23.7). WLTP CO2 Emissions 269 g/km. Urban RDE trip NOx 60.0 mg/km, PN 6.00E+11; Complete RDE trip NOx 60.0 mg/km, PN 6.00E+11. PEMS ID: PF-09-0040-SCF; TA Number: 715/2007*2023/443EC.

Further information on the official fuel consumption and the official specific CO2 emissions of new passenger cars can be found in the "Guide to fuel consumption, CO2 emissions and power consumption of new passenger cars", which is available at all sales outlets and at DAT Deutsche Automobil Treuhand GmbH, Hellmuth- Hirth-Str. 1, D-73760 Ostfildern or at www.dat.de free of charge.

The specified consumption and emission values were determined in accordance with the legally prescribed harmonized test procedure for passenger cars and light commercial vehicles ("Worldwide Harmonized Light Vehicles Test Procedure", WLTP), a more realistic test method for measuring fuel consumption and CO2 emissions than the previous New European Driving Cycle (“NEDC”) method. The fuel consumption you achieve under real life driving conditions and the CO2 produced will depend upon a number of factors including the accessories fitted after registration, driving style, climate conditions and vehicle load.
